

Please amend Claim 1 as follows:

Sub
C1

1. (Amended) A liquid jet recording head comprising:

a [constituting member] liquid flow path having a coating resin layer formed from a cured product of a resin composition comprising[:] (1) a curable epoxy compound, (2) a compound having a functional group reactive to the curable epoxy compound and a fluorocarbon moiety, and (3) a curing agent.

C2

B

wherein the compound having a functional group reactive to the curable epoxy compound and a fluorocarbon moiety is contained in the resin composition at a content ranging from ⁵2% to 50% by weight.

REMARKS

Reconsideration and allowance of the subject application are respectfully solicited.

Claims 1, 2, and 4 through 15 are pending, with Claims 1 and 11 being independent. Claim 3 has been cancelled without prejudice. Claim 1 has been amended, and the features of Claim 3 have been included therein.

The specification has been amended.

The disclosure was objected to for its "Brief Description of the Drawings". This objection is respectfully traversed, and is submitted to have been obviated by the
